About Me

Full Stack Developer with 2 years of experience in Java, Spring Boot, ReactJS, and AWS. Built and deployed scalable solutions for a leading telecom client (Verizon). Integrated REST/SOAP APIs using Postman, and monitored application health using Kibana and CloudWatch. Skilled in front-end development using JavaScript and ReactJS. Experienced in working with databases (MySQL, PostgreSQL), Git and Agile methodologies. and Pega tools like Clipboard and Tracer for effective debugging.

Strong team collaborator with experience mentoring junior developers and working across QA, DevOps, and business teams. Driven by the opportunity to contribute to projects that make a meaningful impact.

Experience

Cognizant | Programmer Analyst   **2023-Present**

- Worked on **Java and Spring Boot** to develop and maintain scalable backend services for enterprise applications.
- Utilized **ReactJS and JavaScript** for building responsive and dynamic user interfaces.
- Designed and integrated **REST/SOAP APIs** using Postman for testing, and managed data using **MySQL** with ORM tools like Hibernate.
- Developed and deployed scalable backend solutions using AWS services such as **EC2, IAM, Lambda, S3, and RDS** ensured secure access and high availability through **VPC** and **CloudWatch monitoring**. Used **Git/GitHub** for version control and collaboration.
- Followed **Agile methodology**, participated in sprint planning, and used **Jenkins, AWS Cloud Formation** for build automation and CI/CD pipelines for deployment.

Lattech | Intern   **2022-2023**

- Interned on a hospital management project, developing **REST API** , **Java** and integrating **Firebase** databases.
- Gained Agile experience, delivering tasks on time and participating in iterative development cycles.

Skills & abilities

Languages: Java, JavaScript, HTML, MySQL, Oracle DB, Python.

Frameworks: Spring Boot, Spring, ReactJS, REST/SOAP API.

Technologies: PEGA, AWS Cloud Services, GitHub.

Tools: Postman, Jira, Jenkins, Kibana, Elastic Search.

Education

Computer Science And Engineering (BE)   **2020-2023**
SDM College of Engineering and Technology

Computer Science And Engineering (Diploma)   **2017-2020**
BVVS Polytechnic (Autonomous), Bagalkot.

Certifications

- AWS Solution Architect Practitioner
- Java Full Stack Certification
- PEGA Certified Senior System Architect (PCSSA)
- Java and SQL certificate by HackerRank

Achievements

- Successfully delivered a high-impact order tracking system for Verizon, enhancing customer experience across multiple purchase scenarios.
- Recognized by the Business Unit (BU) for reducing production defects by 10%, demonstrating strong problem-solving skills and attention to detail.
- Recognized by BU team at Cognizant for outstanding performance and dedication.
- Mentored 3 junior developers, contributing to faster onboarding and higher team productivity.
